PS-215
ULTRASONIC
ANIMAL REPELLER
"Designed for Powerful Effect"

This electronic pest repeller is constructed of solid-state electronics that requires no maintenance or refills.

Effective against : Cat, Dog, Rabbit, Rats, Squirrel, Wolf, Fox, Coons, and Deer with 3 different frequency range settings.

How it works

The PS-215 Animal repeller Device produces strong sound pressure in the air, attacking the auditory and nervous systems of pest animals and rodents. This pressure causes them to abandon their food sources and leave the area. The ultrasonic sounds continuously penetrate up to 225 m² in unobstructed closed areas. It is effective up to 20 m from the device in half open areas.

Harmless to animals, this unit operates totally chemical and battery free, making it the easiest way to keep pest animal on the run.

Features:

- Powerful ultrasonic+sonic sound
- Harmless to humans and pets
- Environmentally friendly
- Low power consumption
- Maintenance free
- Not suitable for use in wet areas

Limitations & Warnings:

Ultrasonic sounds are absorbed by soft materials such as curtains, furniture and carpet, which in turn diminish the effectiveness of the unit. Shadow areas may occur around corners or behind home furnishings. Device should be on 24/7 for continuous effect. Depending on pest infestation wait 2-4 weeks for best effect. It may take at least 2 weeks time for rats to leave their main food source. But they will go away because of disturbance that device cause in their living environment.

- Do not let the unit come in direct contact with water
- Do not modify or tamper with the internal or external components
- Covering or painting over speakers can damage the device and cause it to malfunction or work improperly

Prolonged exposure to the unit in the loud and medium (sonic) settings is not recommended for pets in a confined area and can be irritating to humans.

Specifications

Manufacturing Material	Aluminum body-Tamper resistant
Dimensions:	16cm x 9 cm x 21cm
Weight:	612 gr
Power Supply:	AC Adapter
Frequency:	17,000 to 40,000 Hz
Electricity	220 V
Sound Pressure:	Variable
Protection Coverage:	20 meter from the device

Instructions for use

Insert barrel plug end of the AC adapter cord into the POWER jack, (located in front of the unit). Plug the other end into a standard electrical outlet.

(For outdoor connection, adapter is to be connected to a Receptacle or convenience outlet of the gasket-cover type for use in wet locations).

- The L.E.D. light will remain illuminated as long as the unit is operating.
- Device has a red test button to check if device operates and functional. It simply amplifies the sound and makes it audible to human ear. This button is for testing purpose only.

- Refer to the figure to select the SOUND to customize the desired pest specific settings.

L (17 kHz): Dog, Wolf, Fox, Coons, and Deer

M (23 kHz): Cat and small size dogs

H (40 kHz): Cat, Rabbit, Rats, Squirrel
